

General Meeting 11/07/16

What are we?-

- CEAS Branch of Student Government
- What we do:
 - Academic Representation
 - Fun programs and events
 - Initiatives that better student experience in CEAS

Dean Lim Speech -

- Siemens PLM Technology Center
 - Been with them for 50 years
 - 7 of the staff are involved in modal research
 - Built STRC and left the university
 - Review stuff or the curriculum which hasn't been worked in yet, it takes many years to develop
 - Engineering software is comparable to social media in how greatly it has progressed and evolved
 - Software companies get people hooked so they will go there and work on it, some people are even willing to donate money (very few)
 - Collaborating with them have created Co-op opportunities
- Enrollment
 - The quality of students coming in is getting better and better
 - We're now competing with purdue, osu, and case western; no longer akron or toledo
 - Record-breaking enrollment of >5700
 - Increased quality of 1st yr students
 - 1st yr class is more diverse than ever with increases in both ethnic minority and female students
 - JCU
 - Students come over from China to teach classes
 - Pushing to diversify our populations; most american co-op people wont hire international students, jcu is helping with that
- Biomedical Engineering Department
 - Is being made into it's own department
 - Not going to effect the program in any way
 - Should be treated as it's own branch
- Faculty hiring
 - 15 and 5
 - 41 new faculty hires, 40% female and/or under rep minority
 - Study on how non diverse animals all killed each other to try and get the highest power while diverse group of animals and defects stayed alive cause they didn't really mind

- Department Heads
 - DEE AND CEECS
 - Helmicki is stepping down, hoping to get a new head soon that will bring new ideas to help the department, especially computer science because of the technology era
 - Talked about the industrial revolution: fourth is about machines talking to each other (aka computer sciency stuff)
 - Mass customization

- New CEAS Web Mngr
 - The front door of the college is the website, we're hiring people to make the website look good
 - Make it easier to find things and easy to navigate
 - Some of the faculty pages haven't been updated since the 90s and he wants them updated

- Q&A Session

Q: What is the college doing to recruit more students out of state
-Chris Stone

A: Ohio state and purdue remove the international because it's 20%, our state total is comparable to osu and purdue, we have 3 recruiters that go and visit high schools, go to chicago, los angeles, and austin are our top targets

- Use cincinnatus scholarship to discount their tuition based on how well they did in highschool
- -co-op program
- With change comes opportunity

Q: The university has had an increase in quality students, but what has the college done to compensate and bring more resources for those students?
-Khaled

A: Greater faculty number, hiring more academic advisors, funneling additional money infrastructure, attempting to refurbish all of our labs, but it's a slow process, looking for other sources to bring in money like fundraising, jci and china program is also bringing in money which we are also funneling into more scholarships

Q: The CS program has grown tremendously, with the 15 and 5 program are you working on hiring and faculty retention?
-Juanita

A: Yes, eecs has fired very many new faculty, and sadly most of them left, the next phase of hiring he is making sure this program is addressed, attempting to get new resources for faculty and lab support. When he was a dean it was 12 graduating students and he went to companies and schools trying to find new people to hire for staff because the program was growing so much

Q: Are their opportunities for students to get on search committees for professors
-Kurt

A: He wants to add students, thinks its a good idea, is going to put his opinion in that they should use a student, dean supports it, census vote makes it okay for them to be involved

Q: He signed up for an amish experience, at michigan tech, rose his hand to bid on a pig, fortunately someone out bid him

If you have any ideas for food for meetings, email john!

Special Events-

- Ice skating at fountain square
- Community service event
 - Habitat for humanity

Committees-

Committee Name	Chairs	Email
EOC	Midhun Shanmmuganathan	shanmums@mail.uc.edu
Mentorship	Emily Demjanenko Dane Sowers	demjanes@mail.uc.edu; sowersdd@mail.uc.edu
Technology	Michael Santacroce	santacml@mail.uc.edu
Career Development	Nathan Hamit Tim Kemper	hamitnt@mail.uc.edu; kemperta@mail.uc.edu
EWeek	Irene Mysonhimer Nathan Tiffany	mysonhic@mail.uc.edu; tiffannd@mail.uc.edu
Innovation	Max Inniger	innigemd@mail.uc.edu
Special Events	Hao Tran	tranno@mail.uc.edu
Academic Affairs	Dane Sowers	sowersdd@mail.uc.edu
Communications	Demetri Bardis	bardisdc@mail.uc.edu
ESOC	Christopher Stone	stonec5@mail.uc.edu
FELD	Paige Johnson	johnsp8@mail.uc.edu

ENGINEERING & APPLIED SCIENCE TRIBUNAL

Upcoming Events!

Social Events

Ice Skating at Fountain Square

- Date: 12/3/16
- Time: TBD
- Sign-up Link: <https://goo.gl/forms/K0LWuRfGKuF1tKcn2>

Community Service Events

Habitat for Humanity

- Enjoy a fun build day and earn six hours of community service!
- Date: 11/19/16
- Time: 8:30am -4:00pm
- Location: 1055 Wells St
- Sign up: <https://goo.gl/dYpuZt>

Interested in organizing an event? Join Special Events Committee. Meetings are Thurs at 5:00pm in 650 Baldwin.

ENGINEERING & APPLIED SCIENCE TRIBUNAL

Ice Skating Sign-up: <https://goo.gl/forms/K0LWuRfGKuF1tKcn2>

Habitat for Humanity Sign-up: <https://goo.gl/dYpuZt>

Nominations for Officers:

- Treasurer-

- Jim Ohler
- Emma Lowe
- Mackinley Parsons
- Matt Cecil
- VP of Collegiate Affairs-
 - Chris Stone
 - Christian Donovan
 - Emma Lowe
 - Paige Johnson
 - MGK (McKenzie Kinzbach)
- VP of Events-
 - Sudarshan Talai
 - Christian Donovan
 - Emma Lowe
 - Hao Tran
 - Nathan Tiffany
 - Andy Droesch
 - Paige Johnson

Feel free to email John Lewnard for more nominations - Open till the next general meeting (Nov 21st)
